

GREEN HYDROGEN HACKATHON

A team of teachers from the Department of Electrical & Electronics Engineering, College of Engineering, Muttathara, Thiruvananthapuram, under CAPE has emerged first nationally from the last 13 teams that participated in the Hydrogen Hackathon held during February 9 and 10, 2024 based on the theme of Hydrogen Valley Development in India. The Hackathon was jointly organized by the Netherlands Embassy, Impact Hydrogen, and the University of Groningen. Dr. C Sreekanth, Mr. Anas S R, Smt. Beenu Mary Panicker, Mr. Abilash R S, Smt. Salini M Venugopal are the members of the said team. The winning team of teachers will receive sponsorship to attend the World Hydrogen Summit in Rotterdam, Netherlands from May 13 to 15, 2024. The two-day long hackathon witnessed interactions between experts, entrepreneurs, researchers, industrialists, government officials and students in the field of green hydrogen. The objective is also to develop a meaningful collaboration towards India's green and sustainable energy future. The said Hackathon was inaugurated by M. Gerards, Ambassador of the Netherlands to India. Dr. Anita Gupta, Head, Department of Science and Technology, Energy and Sustainable Technology and Mr. Jyothilal IAS, Additional Chief Secretary to General Administration, Power, Forests & Wildlife, Government of Kerala also delivered the keynote address.

Certificate

OF ACHIEVEMENT

PROUDLY AWARDED TO

Dr Sreekanth

This certificate is awarded to the named individual in recognition of their successful completion and team victory in the **Hydrogen Hackathon – India & The Netherlands**, a two-day event that took place from **February 9 to February 10, 2024**.

NIENKE HOMAN,

FOUNDER & CEO OF
IMPACT HYDROGEN
